As a recent graduate in Software Engineering, I have developed a strong understanding of various programming languages, such as HTML, CSS, JavaScript, Java, SQL, and C#. Additionally, my background in Process Engineering has equipped me with the ability to solve complex problems through analytical thinking while maintaining a collaborative mindset.

Education

Centennial College

Diploma in Software Engineering Technician

Cumulative GPA: 4.20/4.50

Coursework: Advanced Database Concepts; Web Application Development; Java; Programming I/II/III (C#)

Toronto, Ontario

Dec 2023

Federal University of Sao Paulo

Bachelor of Chemical Engineering

Coursework: Algorithms and Computer Programming, Applied Statistics

Sao Paulo, Brazil

Dec 2019

University of South Australia

Awarded with a fully funded scholarship in a federal government student exchange program.

Coursework: Problem Solving and Programming (Python), Management and Organization

Adelaide, Australia

Aug 2015 - Dec 2016

Work Experience

Promon Engenharia S.A.

Process Engineer

- Evaluated chemical processes and developed process simulations using Arrow and Fathom software.
- Developed technical documentation, using AutoCAD, Aveva Diagrams and Engineering and MS Office.
- Collaborated with the backend development team to implement new project components and enhance workflow efficiency.

Sao Paulo, Brazil

Feb 2018 - Jul 2022

Loblaws

Customer Service Associate Deli Department

- Provided exceptional customer service, exceeding customer expectations and ensuring satisfaction through effective communication and problem-solving.
- Demonstrated professionalism and attention to detail in product preparation and service delivery, maintaining high standards of quality and hygiene.

Toronto, Ontario

Nov 2022 - Present

Leadership and Activity

Colmeia

Tutor

- Provided tutoring to students in subjects including math, chemistry, and physics, covering content up to the high school level.
- Assisted students with homework assignments, explained concepts, and reinforced understanding through practice problems and exercises.

Sao Paulo, Brazil

Mar 2020 - Ago 2020

Skills and Interests

- **Technical:** HTML, CSS, JavaScript, C#, Java, SQL, Microsoft Office, git, Aveva Engineering Software, AutoCAD, Angular, React
- **Language:** English, Portuguese (native)
- **Soft-Skills:** Project Management, Conflict resolution, Critical Thinking, Teamwork and Collaboration
- **Interests:** Cooking, Running, Outdoor Adventures
